WTO+10

Learn from our collective victory in 1999

On Nov 30th the World Trade Organization (WTO) will host a "restart" meeting in Geneva – 10 years to the day from when we shut down the WTO! On Dec 7th, the United Nations Conference on Climate Change opens in Copenhagen. These are uncertain times and much is at stake: Join us to reclaim and amplify our voices with the vision we have for a healthy planet and people. Let's harness the spirit of the 1999 WTO protests in Seattle with a renewed commitment to move global justice forward!
